To Whom It May Concern

### **Subject: Low Fugitive Emission Statement of ISV API 602 Gate and Globe Valves**

This is to certify that ISV 1GTB Series Gate Valves designed in accordance with API 602 and Globe Valves designed in accordance with API602 are manufactured with stem packings which ensures leakage of maximum 100 ppm (parts per million) of volatile organic compounds.

ISV conducted Fugitive Emission Tests on a selection of Gate and Globe Valves per "API 624 Type Testing of Rising and rising/rotating Stem Valves Equipped with Graphite Packing for Fugitive Emissions.

Low Emission Valve qualification by Size and Class are as follow based on API 624 are as follows :

1GTB 1/2" – 2" Class 150 - 1500 Gate

1GLB 1/2" – 2" Class 150 - 1500 Globe

Test certificates or detailed test reports are available upon specific requests.  
Please contact us if you have any further questions and/or comments.
