To Whom It May Concern

Subject: Low Fugitive Emission Statement of ISV API 600 Gate Valves

This is to certify that ISV 2GTB Series Gate Valves designed in accordance with API 600 are manufactured with stem packings which ensures leakage of maximum 100 ppm (parts per million) of volatile organic compounds.

ISV conducted Fugitive Emission Tests on a selection of Gate Valves per "API 624 Type Testing of Rising Stem Valves Equipped with Graphite Packing for Fugitive Emissions.

Low Emission Valve qualification by Size and Class are as follow based on the API 624 are as follows :

2" - 24" Class 150
2" - 14" Class 300
2" - 14" Class 600

Test certificates or detailed test reports are available upon specific requests.
Please contact us if you have any further questions and/or comments.
